

PRODUCT INFORMATION

Nylon Cable Clamps

Cable Clamps are ideal for securing harnesses, cable or tubing. These clamps feature a durable lightweight Polyamide Nylon construction for durable use in indoor or outdoor applications. Used for construction, maintenance and assembly-line operations.

Position at desired location, insert cable or tube (not included) and then fasten with a screw or nail (not included).

Material

UL Certified Polyamide Nylon 6.6, 94V-2

Colour

Black

Pack Quantity

100 Pieces Per Pack

Features & Benefits:

- For permanent, or semi-permanent cable fixing
- Keeps wire bundles etc. tidy and secure
- Ideal for automotive, heavy transport, agricultural and electronic use. Also aircraft and aerospace due to their very light weight
- Radiuses interior edges for cable insulation protection
