PRODUCT INFORMATION

Digital Tyre Inflator

Part # M7-SB201

FEATURES

- **Multi Unit Digital Readout -** Clear digital display with selectable PSI, kPa and BAR units, ideal for workshops and users working across different pressure standards.
- **Professional Grade Accuracy -** Digital pressure measurement eliminates guesswork, delivering consistent and reliable inflation results every time.
- **High Pressure Capability -** Rated up to 160psi, suitable for cars, light trucks, motorcycles, trailers and general workshop applications.
- **Fast & Efficient Inflation -** Optimised airflow design provides quick inflation while minimising compressor load and downtime.
- **Lightweight & Ergonomic Design -** Compact construction at approximately 0.32kg, reducing hand fatigue during repetitive tyre servicing.
- **300mm Flexible Hose for Easy Access -** Extended hose length improves reach to difficult valve positions, including deep-dish wheels and tight wheel arches.
- **Simple One Handed Operation -** Intuitive trigger control allows fast inflation and precise pressure adjustment with minimal effort.
- **Built for Workshop Durability -** Robust internal components engineered for frequent professional use in demanding environments.

SPECIFICATIONS

- Max Pressure: 160PSI (11.0 bar)
- Air Consumption @ 100psi: 1.41 CFM
- Air Inlet: 1/4”
- Air Pressure: 90psi (6.3 bar)
- Net Weight: 0.32kg
- Hose Length: 300mm
